RubyWebDialogs

Screen Definitions

Fri Oct 06 19:42:52 UTC 2006

Erik Veenstra <rubywebdialogs@erikveen.dds.nl>

1. Introduction

"*" means: all, except the ones of type "General".

The column `Children` is not accurate. Just experiment with some combinations.

(Is somebody able and willing to make a DTD?)

(Of course, RubyWebDialogs has to check the combinations during rendering of the window. I'm just a bit lazy for now and trust the programmer.)

2. General

Element	Attributes	Type	Children
application	charset	general	window, helpwindow
window	title, logo, watermark, spacing, width, nobackbuttons, noclosebutton, refresh	general	tabs, *
helpwindow	title, logo, watermark, spacing, width, nobackbuttons, noclosebutton, refresh	general	tabs, *
tabs	align	general	tab
tab	align, name, caption	general	*
<i>plaintext</i>		general	a, b, i, big, small

3. Text

Element	Attributes	Type	Children
p	align	text	plaintext
pre	align	text	plaintext
a	href or action, target	text	plaintext
b		text	plaintext
i		text	plaintext
big	align	text	plaintext
small	align	text	plaintext

4. Layout

Element	Attributes	Type	Children
br		layout	
empty		layout	
table		layout	row
row	align, valign	layout	*
horizontal	align, valign	layout	*
vertical	spacing	layout	*
list	align	input	item
item	align	input	*

5. Graphics

Element	Attributes	Type	Children
image	src, alt, width, height, title	graphics	
panel	align, level (normal, high or low), spacing	graphics	*
hr		graphics	

6. Input

Element	Attributes	Type	Children
password	name, align, maxlength, size, value	input	
radio	name, align, value	input	
select	name, align, size, width	input	option
option		input	
text	name, align, maxlength, size, value	input	
checkbox	name, align	input	
hidden	name, align, value	input	

7. Buttons

Element	Attributes	Type	Children
button	caption, action	buttons	
back		buttons	
cancel		buttons	
close		buttons	
help		buttons	
main		buttons	
reset		buttons	
quit		buttons	
closewindow		buttons
